Help Protect Barbara from Pesticide Spraying

Total: _____

To the President and Members of the Legislative Council of the Parliament of Western Australia in parliament assembled:

We, the undersigned residents of Western Australia are calling on the state Minister for Health to exercise his duty of care and ensure that the Environmental Health Officer of the City of Stirling takes immediate action to stop the harm to Barbara's health in accordance with the following petition to the City of Stirling:

To: Chief Executive Officer, Mayor and Councillors at the City of Stirling, Western Australia and the Minister for Health, Western Australia

Barbara has been very sick for much of her life due to a serious illness. Like many sick people she is extremely sensitive to toxic chemicals. She has written to the City of Stirling in Western Australia to ask for a 500 metre "Pesticide Exclusion Zone" around her house so that she can walk her dog and go to the local shopping centre for her groceries but this has been refused. The City of Stirling will only exclude the frontage of her house.

You are called upon to protect Barbara's health by convincing the relevant department of the City of Stirling to grant Barbara a 500 metre Pesticide Exclusion Zone or preferably, to stop spraying toxic chemicals throughout the City's public land.
